

Art School Improvement Priorities 2022 - 2023

To ensure by the creation of a new focus area of studies that all areas of skill are being taught successfully.

To raise standards and expectations within art through the teaching of key skills and techniques.

To monitor the use of sketch books

Provide in school training for all staff in the use of specialist art equipment.

To implement the new access art curriculum across the school.

To plan in more school trips and visitors to maximise the children first hand experiences and to give a meaningful context to their learning.

Use I Know and I can statements in children's learning to demonstrate clear progression in knowledge and skills learnt

When Art is an area of whole school focus conduct a Deep Dive (conduct a book scrutiny, series of lesson observations, pupil interviews and staff discussion) focusing on progression of skills and knowledge throughout the school.

Amend progression grids, with age-appropriate expectations being listed under the sub-headings of Knowledge and Skills, using language accessible to children...
